EXPERIENCE

AI Research & Development Engineer Jan 2026 – Present
ICS Group of Companies *Karachi, Pakistan*

- Built an AI financial reporting tool (JWT-secured, in-memory) converting Excel uploads into natural-language Q&A and auto-generated PDF reports; automated monthly reporting via Make.com pulling data from SAP
- Built an AI Resume Analyzer (FastAPI + Node.js) scoring resumes against job descriptions, cutting screening time by 60%
- Built an AI Hiring Assessment Generator with one-click PDF/Word export for HR and Finance teams

AI Intern Sep 2025 – Nov 2025
Avanza Solutions *Pakistan*

- Built a full-stack agentic AI Revenue Analyzer (n8n, Supabase, PostgreSQL) automating Pre-Sales client engagement with RAG-powered natural language queries for real-time financial insights

Data Analyst Jun 2025 – Sep 2025
Wavetec *Karachi, Pakistan*

- Audited 1000+ stored procedures across the Spectra Dashboard and developed an AI chatbot (n8n, LangChain, GPT-4o, Supabase, Pinecone) for real-time RAG-based website support

PROJECTS

NeuroTrack – EEG Emotion Recognition. XGBoost classifier on GAMEEMO EEG data (87.76% accuracy); deployed live with FastAPI + React; co-authored paper submitted to JLUMHS.

Squared – squared-app-two.vercel.app. Bill-splitting PWA: split equally, custom, or item-by-item; balances simplified to minimum payments; no-login shareable links.

Portfolio – about-aakanksha.vercel.app. Interactive, gamified personal site with an explorable, game-like interface.
